

STONE[®] LED Flood Light

LED PIR Sensor

Features:

Spotlight, no shadow. In excellent condition
Energy saving, low power consumption, long life expectancy
More Energy efficient than Incandescent and most Halogen Lamps
Suitable for Stadium, exhibition or Play Ground, etc.

Applications:

The Motion Sensor Floodlight is a fantastic way to add simple, automated lighting to your home. It was primarily designed to act as an outdoor floodlight, replacing an existing light by your front porch, back patio, garage door, driveway and other possible entryways/exits.

By time setting function, you will provide lighting only when needed, which cuts down on energy consumption.

This Motion Sensor Floodlight can also be used as a way to notify you that someone is approaching your home and as a way to offer minimal security against intruders.

This simple lighting solution is a great way to add safety, convenience and piece of mind to your home.

Specifications:

Motion Sensor:	PIR
Voltage:	AC85-265V
Shell Material:	High strength Metal
Heat Sink Material:	Aluminum alloy
Motion Angle:	120 degree (Horizontal)
Motion Distance:	about 2-8meters
Brightness Sensor:	(adjustable) about 10Lux -1500lux
Time setting:	(adjustable) 5 seconds- 8 minutes
Brightness in Lux:	1400-1700LM
Power consumption:	10W
Color:	Pure White
LED Quantity:	1 Pcs
Body temperature:	<60 degree
LED working temperature:	<65 degree
Life:	50,000h
Safety assurance:	CE &RoHS
Size:	L115*W95*H85mm
