ALARM SYSTEM

Anywhere Anytime

Insert a SIM card, and you can remotely operate the alarm system with SMS text messages or smartphone app commands.

Plug in any PSTN fixed landline, and you can dial in to the alarm system and follow the voice prompts for easy operation.

Power Beyond Imagination

The B11 stores up to 6 dial-in phone numbers, 6 call-out numbers, 2 CID central station numbers and 150 latest incidents. You can also record a 10-second warning message on your own.

Silent Guard

You can enter a customizable duress code to disarm the B11, while it still gets the help that you need in an emergency.

On A Schedule

You can preset an arm and disarm schedule for your weekday routine.

You Name It

Feel free to name all the detection zones and RFID tags to your liking.

STONE® Dual-Network Wireless Alarm System

Chic & Cool

Easy Operation in Plain Sight
Easy to the Touch & on the Eye
Elegant Piano Finish

Wireless Outdoor Strobe Siren

WS-280

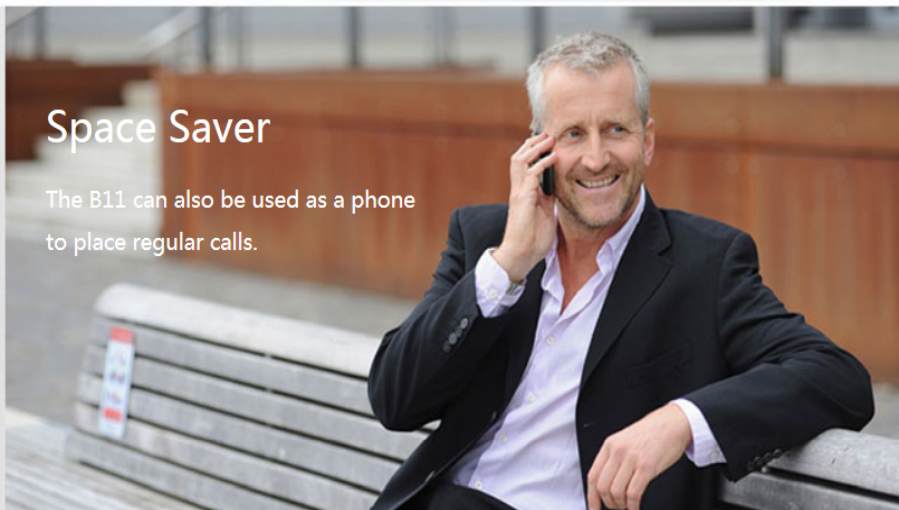

When connected to an alarm system, the WS-280 is an effective crime deterrent and can easily work with other sirens in the same system. The unit can also work with other accessories such as remote controls, door/window contacts and PIR detectors on the same radio frequency to build an on-site alarm system.

Specifications

Power Supply	DC 12V 500mA
Backup Battery	18650 3.7V 1200mAh rechargeable lithium battery
Maximum Alarm Current	≤350mA
Static Current	≤14mA
Wireless Receiving Distance	≤80m (in open area)
Operation Condition	Temperature: -10°C ~ +55°C Relative Humidity: ≤80% (Non-condensing)
Maximum Siren Volume	105dB
Battery Standby Time	≤3 days
Radio Frequency	315MHz or 433.92MHz (±75KHz)
Housing Material	PC+ABC+ANTI-UV
IP Rating	IP 54
Dimensions (L×W×H)	245.2x227.5x72.4 mm

Space Saver

The B11 can also be used as a phone to place regular calls.

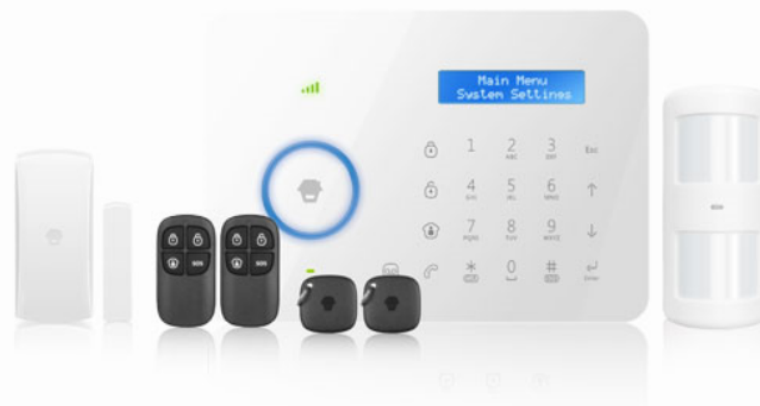

Optional accessories

STONE® Dual-Network Wireless Alarm System

System Items

CG-B11 Control Panel x 1
DWC-102 Wireless Door/Window Contact x 1
PIR-910 Wireless Pet-Immune PIR Motion Detector x 1
RC-80 Wireless Remote Control x2
TAG-26 RFID Tag x2

Specifications

Power Supply	Input: AC 110V-240V, 50/60Hz Output: DC 12V 500mA, 6Wh
Standby Current	≤ 90mA
Alarm Current	≤ 300mA
Backup Battery	BL-5B 3.7V 800mAh Rechargeable lithium battery x 2 pcs
Internal Siren Volume	95dB
Radio Frequency	315MHz or 433.92MHz (±75KHz)
Maximum Stored Phone No.	6 Alarm Phone No. and 2 CMS No.
Maximum Remote Controls	10 pcs
Maximum Sensors	50 pcs
Maximum RFID Tags	50 pcs
Maximum Event Logs	150 events
Housing Material	ABS plastic
Operation Condition	Temperature: -10°C~ +55°C Relative Humidity: 80% (non-condensing)
Dimension (L x W x H)	185x130x27mm
