

STONE® Mobile Body Camera

PD77G

- Small & Portable : All-in-one device, hand-free design
- HD & High Quality : 170° ultra wide angle & 1080P HD recording
- Easy-to-use : One-click operation, menu operation in 1.5 inches TFT screen
- High Adaptability : Built-in infrared night vision light & highlight LED flash
- Safe : Data encryption, identity recognition
- More Durable : 1100mAh high-capacity li-battery
- Powerful & Extendible : External connection to 3G device, wireless transmission device and intercom

STONE® Mobile Body Camera

Key Specifications

- >170° wide-angle lens
- >1/2.5 CMOS sensor, 5.0 Mega Pixels
- > F/2.5 aperture, and support nightshot(3m)
- >Built-in G-Sensor
- >Self-time indicator
- >Built-in 8G TFT card memory, easy for data protection. (max. 32G)
- >HD video recording/photo snapping function with various models
- >Separated sound recording, for long time sound recording
- >AV OUT
- >1.5' TFT screen for reviewing and setting
- >Battery capacity checking and alert function
- >Memory capacity checking and alert function
- >RTC function with time stamp, to ensure the validity of certification
- >Files uploading and cutting function
- >Data encrypting for security
- >Built-in high capacity and rechargeable Li battery
- >USB 2.0
- >Integrated charging and data transferring interface
- >Shockproof, waterproof, dustproof, reach IP65 standard
- >Recording by segment, 30 minutes of each segment; cycle rewrite (15 minutes of each segment)
- >Remote control function (recording, stop, photosnap)
- >OS supported: Windows 98SE/2000/Me/XP/Vista/Mac OS
- >Auto power off: stand by if no operation in 2 seconds; power off if no operation in 30 seconds
- >PC Camera function for video meeting (Press recording keypad and connect to PC)
- >Standard 1/4 inch interface for various accessories
- >Built-in buzzer for sound indicator
- >All in one keypad for easy operation, and keep the dependability.
- >Build-in Mic for synchronous video and sound

Pixel	5 million Color CMOS
Visual angle	170°
Battery capacity	1000mAH polymer Lithium battery (can be used repeatedly)
Consumed current	570mA / 3.7V(max)
Using time of battery	2.5-hour successive video shooting
Standby time	About 120 hours
Charging time	About 3 hours
Distance of remote control	6m(max)
Storage temperature	-20°C-60°C
Operating temperature	-10°C-50°C
Operating humidity	15-85% RH
Video format	MOV
Photo format	JPEG
Recording format	WAV
Video format	1080P / 960P / 720P / WGA
USB specification	USB 2.0
Operating platform	Windows XP / Vista / Win7
Body weight of machine	100g
External appearance size	71mm x58mmx30mm
