

STONE® Door Magnetic Contact for Intruder Alarm Systems

Model: EB-131

<u>Dimension</u>	64×19×13(mm)
<u>Suitable for</u>	Wooden door or window
<u>Contact mode</u>	NO/NC
<u>Gap</u>	20±5(mm)
<u>Color</u>	Brown/White
<u>Max voltage</u>	≤DC 100V
<u>Max current</u>	≤500mA
<u>Max rating</u>	≤10W

Surface mount contact

15-25mm Wired Door Magnetic Contact with Screw Mounted

OHMG-01

Overhead Magnetic contact

- * Rated current: 500mA
- * Rated voltage: 200VDC
- * Operating distance: ≥50m, ≤90m
- * Rated capacity: 10(w)
- * Service life: A million times
- Used in anti-theft alarm of roller shutter

Dimension: 105*47.5*9.5mm (switch) / 88*20*20mm (magnet)

- * Housing: Metal (Alloy-Zn), grey
- * Gap: 50-70mm / 60-70mm available

1. Operating distance: 15-25mm
2. Switch form: Normally Closed (open circuit alarm)
NO——normally opened (close circuit alarm)
NO&NC——normally open/close type
3. Current/Voltage/power: 0.5A/100V/10W
