A superb little item that's going to save you a lot of trouble! The robot vacuum cleaner allows you to make the dream of never having to walk around vacuum cleaning a reality. This futuristic vacuum cleaner cleans both hard floor surfaces and carpets. Its anti-bump sensors mean there is no need to worry about it knocking into your belongings, and it also enables the robotic vacuum cleaner to stop and change direction when it approaches an obstacle. It is also incredibly easy to use, simply touch the start button to set your cleaning time from 10, 30 or a maximum of 90 minutes. Measuring at only 6.5cm tall, its slim profile allows it to clean in those hard to reach places, including under the furniture. The vacuum cleaner is fitted with a carry handle and also a bag less easy to empty debris container.
